

OH RATS!™

From Three Years

CONTENTS: Four six-piece puzzle boards
One Rat Spinner
Instructions

NUMBER OF PLAYERS: One to Four

OBJECT: The first player to complete the puzzle wins the game.

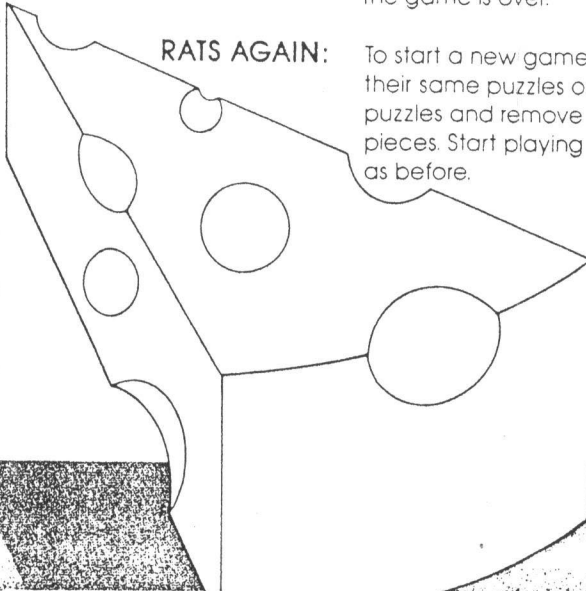

SET UP: Remove the puzzle pieces and place them next to the puzzle frame.

THE SPINNER: Decide in advance whether the head or tail on the spinner will be used as the pointer. Or for more fun, call out "heads" or "tails" during the player's turn while the rat is spinning. The youngest player starts first. Spin the spinner. Place the colored piece on the puzzle that matches the color pointed to by the spinner.

"OH RATS!": If the color on the pointer has already been placed in the player's frame, the player shouts "OH RATS!" and forfeits his turn to the player on the left.

THE WINNER: The first player to complete his puzzle wins! Other players continue until all puzzles are completed and the game is over.

RATS AGAIN: To start a new game, players use their same puzzles or select new puzzles and remove the puzzle pieces. Start playing the game as before.
