## RING WHIZ

### DIRECTIONS

This simple action game should be played in its box, which is especially designed for this purpose.

The players take turns spinning the top and dropping all seven rings, one at a time, on the top while it spins. When the top stops, some or all of the rings will spill off onto the scoring board, and score is counted according to where the rings fall.

---

---

Should any of the rings whiz off the top while it is spinning, the player is permitted to recover such rings and put them on the top again, *provided it is still spinning.*

Rings remaining on the top after it has ceased to move, do not score.

A great many variations on this game can be made by the players.
