## Pick or Pickle

### RULES OF THE GAME

Place or hang target in convenient place. Then stand off certain distance decided upon and throw darts. At parties the host or hostess gives player whatever they hit on the target. Outside of the target wins a pickle. Or you may add numbers in circles, the one first reaching total decided upon, wins the game. We suggest standing off from ten to twenty feet. Total to win game can be from 100 to 1000.
