## INSTRUCTIONS FOR PLAYING

The idea of "The Twosome" jig saw puzzle game is to bring the fun of assembling jig saw puzzles into the realm of competition.

Each puzzle is cut into two sections as nearly equally difficult as possible. Each section is complete in its tray in the box. The two sections, when assembled will form a delightful picture.

To play the game, let each member of the twosome select a tray and start at the same time, the player first completing his section wins the game.

Repeat the game by exchanging sections.
