

SPORTS - Milton Bradley 4143

Four counters (red, green, black, yellow) and a spinner.

Players, in turn, spin the arrow of the dial and move the indicated number of spaces. Spaces with stars indicate poor playing or poor sport and cannot be occupied. If the number registered by the arrow would result in arriving at such a space, the player cannot move.

Two counters cannot occupy the same space. The player first reaching space 77, First Prize, by an exact number turned wins the game, as his counter represents a sport the best contested.
