

Played all over the world. For Laughter,
Fun and Excitement, **PIT** is unequalled.

Ask Your Dealer For It— 50 Cents

ROOK

Patented
March 22,
1910.

The Most Popular Game in the World.

The greatest success in games for 50 years.
Played with handsome, finest quality round-
cornered cards (as pictured).

In addition to **ROOK** (the favorite game),
the great games "*Parkette*," "*I Doubt It*,"
"*Flip*," "*High 14*," "*Panjandrum*" and other
famous games are played with the same cards.

Clear *RULES* for all. 10 GAMES IN ONE.

Several of the games, such as "*Flip*," and "*I Doubt It*," are light, bright and spirited,
others afford a field for deeper or more scientific play. Rules come for all. There are
games for all ages and tastes. Sold by all dealers or mailed postpaid for price, **50c.** by

PARKER BROTHERS, Salem, Mass., or Flatiron Building, New York.

PLAY ROOK!

DIRECTIONS FOR PLAYING

... THE GAME OF ...

Little Mother Goose.

Published by
PARKER BROTHERS, Salem, Mass., U. S. A.

1. There are in this game a number of pairs, each pair having
the same picture and therefore matching, and one card with the
picture of "Mother Goose."

2. **The object of the game** is to match all cards in one's hand, *and to avoid being left at the end of the game with Mother Goose.*

3. Shuffle the cards and deal one at a time until all are distributed.

4. As soon as the cards are dealt *each player matches as many of the cards in his hand* as he can and throws them aside, that is, if he holds any pairs he put them down.

5. The dealer then draws a card from the player on his right, and if it matches and forms a pair with one of the cards in his hand, he throws the pair aside. If it does not match, he keeps it in his hand.

6. *Whether he can match the card drawn or not*, it then becomes the turn of the player on his left to draw from him, and match if possible.

7. So the game proceeds until all the cards have been matched and thrown aside, leaving Mother Goose only, **and the player holding that is declared Mother Goose and LOSES THE GAME.**

8. When a player has matched all his cards, he is out of the game and must draw no more.
