Published by PARKER BROTHERS, Inc., Salem, Mass., New York, London

FOR ANY NUMBER OF PLAYERS

DIRECTIONS FOR LOADING THE AIR CUSHION GUN

Pull the lever forward until the trigger catches, then replace to original position. Push the cork firmly into the end of the barrel and the gun is ready to shoot.

Hang the board against the wall on a hook or nail. Lift the slide by means of the wire at the side until it rests with the ROOSTER appearing at the window.

Players stand away from the target to about the length of the string, and endeavor, BY FIRING THE RIFLE, to HIT THE ROOSTER, causing him to drop to the floor of the barn. The darkey, who is in the barn after the rooster, is then discovered.

PLAY IN TURN, each player having one shot; the first player succeeding in hitting the rooster and discovering the darkey WINS THE GAME.

The trap is then put into its original position and the play resumed.
