DIRECTION CARD

Reading for A Wish Only

Querant shuffles cards while concentrating on a wish. Cut deck 7 times and place cards in 3 piles. Three cards from each pile are turned up. If Wish Card is among the nine, it is favorable.

Reading for One Absent

Lay Querant Card aside. Querant makes wish concerning absentee while shuffling cards well. Reader deals 7 cards to discard, face down; places next 3 in row, face up. Repeat above until there are 3 rows of 3, the second and third rows being directly underneath the first. Lay aside remainder of deck, not with discard.

1st row of three concerns health of absentee.

2nd row of three concerns plans of absentee.

3rd row of three concerns possessions of absentee.

If Wish Card appears among nine cards, face up, it is very favorable; if among part of deck not dealt, favorable; if among discards, unfavorable.

: One can read his own fortune by performing operations of both Querant and Reader.

Never make more than three readings in one day for one person.
