GAME OF

BUY AND SELL

A First-Class Game for Children

(DIRECTIONS INSIDE)

DIRECTIONS FOR PLAYING

Buy and Sell

Children who like to "play store" will get lots of fun from this game

CUT the cards apart on dotted lines, so that you will have two kinds of small cards, money and merchandise cards. Any number of players may play the game. Place the merchandise cards in a pile, face

(OVER)

downward, and deal the money cards one at a time till all are distributed. Each person in turn draws a merchandise from the pile, and, if he can make the exact amount with money cards in his hand, must buy it, placing the money cards to one side and keeping the merchandise cards in a separate pile. If unable to make exact change, the merchandise card is placed back in pile and the next one plays. The player wins who has the greater number of merchandise cards when all have been taken up.

When playing store one side has all the merchandise cards and the other all the money cards.
