

Star Puzzle

(Lion Coffee game premium by Woolson Spice Company)

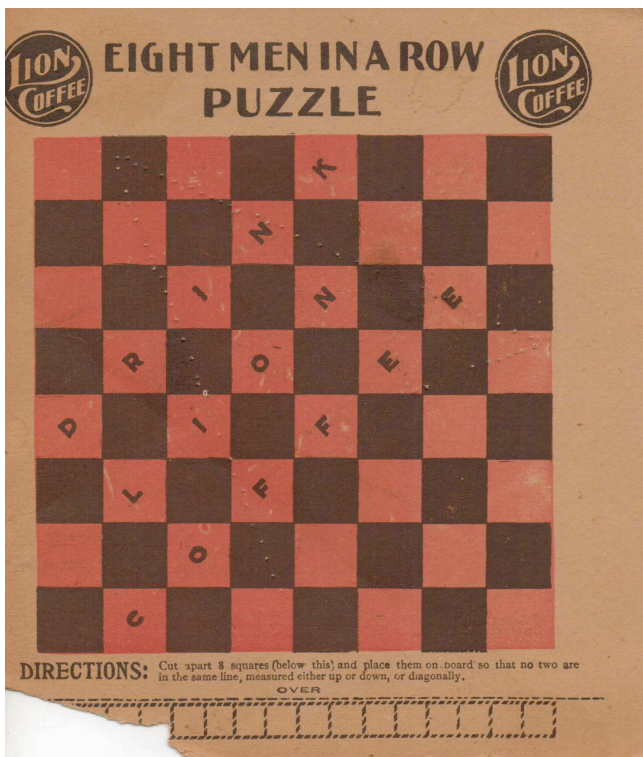

Directions:

On the eight-pointed stars you are to place seven Lion Coffee beans - one at a time, leaving one place vacant when complete. (The small paper squares on other side can be used if desired.) *Remember only* to start at one end of a line each time and place the bean at the opposite end of the game line. It is not permissible to start from any point which is already occupied by a bean. To illustrate, supposing you decide to start your first bean on 1, this can be done from point 6 or point 4.

Eight Men in a Row Puzzle

Directions:

Cut apart 8 squares (below this) and place them on board so that no two are in the same line, measured either up or down, or diagonally

Game board with pieces
